

DevOps Summit Singapore

📅 25 September 2025 📍 Singapore

FEATURED SPEAKERS

Ketan Mujumdar

Director of Engineering

Kiran Khatri

Senior VP Engineering Excellence

Sathiyaseelan Murugaiyah

Head of DevSecOps - SaaS

Arun Vivek Iver

Executive Director, Global Head of Security Engineering & DevSecOps

Shamsheer Mohammad

VP - DevOps & Engineering

Mohammed Rampurawala

Senior Software Architect

KEY TOPICS

Defining Engineering Excellence:
Fostering innovation & high performing teams

Driving a culture of
productivity, innovation & collaboration

Integrating AI into DevSecOps
for elevated code quality & faster speed to market

WHO WILL ATTEND

Chief Technology Officer
Head of Application

Head of Engineering
Head of Development

Head of DevOps
Head of Application Security

DevOps Summit SINGAPORE

AGENDA

9:00AM REGISTRATION & REFRESHMENTS

9:30AM WELCOME REMARKS

9:40AM PANEL DISCUSSION

Transforming DevOps Culture & Future Proofing Engineering Teams

- Leadership strategies for driving cultural transformation
- Optimising workflows to accelerate time to delivery
- Empowering developers with the right tools for autonomy and innovation
- Evolving metrics to align with organisational agility

Shamsheer Mohammad, VP - DevOps & Engineering, DBS
Kiran Khatri, Senior VP Engineering Excellence, Citi Bank
Picklu Paul, Senior Cybersecurity Leader, Grab
Balamurugan Mohandoss Gandhi, Head of Engineering, PropertyGuru Group

10:20AM CASE STUDY

Building A Data Strategy to Unlock the Potential of Rapid, Secure Data Delivery

10:50AM MORNING TEA & NETWORKING

11:20AM INTERACTIVE

Effective resolution strategies periods of high-traffic through complex systems

11:50AM PANEL DISCUSSION

AI & Automation: Enhancing and Streamlining DevOps Workflows

- Automating processes to maximise developer efficiency
- Balancing automation with human oversight to mitigate risks
- Eliminating bottlenecks for faster, more efficient releases
- Leveraging AI-powered tools to accelerate development and deployment

Ketan Mujumdar, Director Of Engineering, Carousell
Mohammed Rampurawala, Senior Software Architect, Netflix
Pradeep Kumar Ratnala, Director of Engineering, Rakuten Viki

12:30PM PRESENTATION

Speed up operations and scale your teams through DevOps automation

1:00PM LUNCH & NETWORKING

1:40PM INTERACTIVE WORKSHOPS

- Innovate at Speed: Unleashing DevOps potential through accelerated application releases & fast test data management
- How is AI going to be integrated in your DevOps
- Observability Maturity: The journey to enhanced visibility & performance optimisation
- Software Supply Chain Security; Building secure DevOps pipelines
- Discussing how leaders can enhance developer experience to pave the way for innovation

2:20PM PANEL DISCUSSION

DevSecOps: The Future of Secure Software Delivery

- Shifting left in development: Embedding security from the start
- Observability & monitoring: Gaining deep visibility into your systems
- Security in open-source development: Challenges and best practices

Sathiyaseelan Murugaiyah, Head of DevSecOps - SaaS, CirclesLife

Arun Vivek Iyer, Executive Director, Global Head of Security Engineering & DevSecOps, Standard Chartered
Deepak Maharaj, Head of InfoSec Architecture, Engineering, AirAsia

Animesh Banerjee, DevSecOps Director, Visa

3:00PM PRESENTATION

Speed up operations and scale your teams through DevOps automation

3:30PM AFTERNOON TEA & NETWORKING

3:50PM KEYNOTE

Future-Proofing DevOps: Architecting for the Next Generation of Digital Experiences

4:20PM

CLOSING REMARKS FOLLOWED BY NETWORKING DRINKS

5:20PM EVENT CONCLUDES
