

Cyber Resilience Summit Singapore

28th July 2026 @ Marina Bay Sands

FEATURED SPEAKERS

Casper Wang
Chief Information Security Officer,
ASEAN & Singapore Cluster

Christopher Fong
Group Chief Information
Security Officer

Anil Kumar
Chief Information Security
Officer

Varun Srivastava
Group Head, Information
Security & Data Governance

Hwee Cher Tan
Group Head, Information
Security & Data Governance

Devki Gourav
Head of Global Cyber Security
Operations

KEY TOPICS

Driving Organisation
Wide Readiness: Building
your Cyber Incident
Response & Crisis
Management Capabilities

Optimising Security
Monitoring, Detection &
Assurance for
Contemporary Cyber
Threats

Beyond the Hype: AI &
Automation Use Cases to
Empower Cyber
Operations

Unpacking Cyber Security
in the Post Quantum
World

WHO WILL ATTEND

CISO

CIO

Cyber

Operations

Technology Risk

Security

Security Architect

Cyber Resilience Summit SIN

AGENDA

9:30AM REGISTRATION & REFRESHMENTS

10:00AM WELCOME REMARKS

10:10AM PANEL DISCUSSION 

Driving Organisation Wide Readiness: Building your Cyber Incident Response & Crisis Management Capabilities

- What does good look like: developing and practicing your incident response play books
- Uplifting cyber awareness education to streamline responder and stakeholder actions
- Best practice in operational continuity and disruption minimisation

Christopher Fong, Group Chief Information Security Officer, Pacific International Lines

Casper Wang, Chief Information Security Officer, ASEAN & Singapore Cluster, Standard Chartered

Anil Kumar, Chief Information Security Officer, India International insurance

10:50AM PRESENTATION

Post Quantum readiness: Unpacking the scale of impact and necessary preparation

11:10AM MORNING TEA & NETWORKING

11:40PM BRAINSTORM SESSION 

12:10PM PANEL DISCUSISON 

Optimising Security Monitoring, Detection & Assurance for Contemporary Cyber Threats

- Optimising network detection and monitoring for the evolving threat landscape
 - Effectively leveraging purple teaming and proactive security for SOC readiness
 - Enhancing vulnerability management and cyber assurance coordination
-

12:50PM PRESENTATION

The Age of Agentic AI in Cyber Security Operations

1:10PM LUNCH & NETWORKING

2:00PM INTERACTIVE WORKSHOPS 

- **Edge Security: Uplifting security and employee security**
 - **Exploring the modern threat landscape and tactics of motivated malicious actors**
 - **The risk from within: Devising a holistic insider threat strategy**
 - **Devising live third party threat reporting capabilities**
 - **Integrating the three pillars of modern defensible architecture**
 - **Zero trust in the age of agentic AI**
-

2:40PM PANEL DISCUSSION 

Beyond the Hype: AI & Automation Use Cases to Empower Cyber Operations

- Unpacking the road to assisted, augmented and semi-autonomous security operations
- Leveraging AI pattern Recognition and behavioural analysis in threat detection
- Fast tracking threat response with automated alert triaging

Varun Srivastava, Head - Cyber Security Operations, APAC, UBS

Hwee Cher Tan, Group Head, Information Security & Data Governance, CGS International

Devki Gourav, Head of Global Cyber Security Operations, Lazada

3:20PM PRESENTATION

Uplifting Third Party Risk Visibility and Control in a Interconnected Landscape

3:40PM AFTERNOON TEA & NETWORKING

4:00PM CLOSING KEYNOTE

Unpacking Cyber Security in the Post Quantum World

4:30PM

CLOSING REMARKS FOLLOWED BY NETWORKING DRINKS

5:30PM EVENT CONCLUDES
